Conservative Warrior Kelli Stargel Launches Congressional Campaign

Kelli Stargel today announced she has filed to run for Congressional District 15. Stargel, who has fought for the unborn, parental rights and freedom for Florida's families and businesses announced her run as legislative leaders continue to stand with Governor DeSantis after this year's successful 2022 legislative session.

"I know what is possible when consistent conservatives fight for our shared values. In Tallahassee, I have fought alongside Governor Ron DeSantis to prioritize Florida's families, fight for parental choice and ensure our state remains a beacon of freedom for the rest of the world," said Stargel. "It's easy to say you'll fight for the unborn, work to expand school choice, or demand accountability for our small business owners, but I'm the only candidate in this race who has actually delivered on these critical issues."

ABOUT KELLI

While our freedom, our families and our way of life have been under attack by the liberal agenda, Kelli Stargel has been on the front lines, fighting alongside Governor Ron DeSantis to defend our conservative Florida values. When socialist Democrats tried to shut down our economy, Kelli fought back and protected our right to earn a living. When socialist Democrats tried to shut down our churches, Kelli fought back to ensure religious freedom is protected, even in times of statewide emergency.

When socialist Democrats tried to mask our children and mandate vaccines, Kelli fought back to defend the rights of our students, our parents and our workers. When socialist Democrats tried to allow biological males to take over womens sports, Kelli fought back. When socialist Democrats tried to indoctrinate our children with Critical Race Theory and radical gender ideology, Kelli fought back.

Where Washington has failed Floridians over and over, Kelli has proven fiscal responsibility is not only possible, but absolutely necessary for the health of our economy, our families and our businesses.
