Florida Gas Prices are Lowest In Two Months

[Florida gas prices](#) rose 7 cents last week. However, those gains were quickly erased by the weekend.

On Sunday, the state average was \$3.31 per gallon. That's 2 cents less than last week, 12 cents less than a month ago, and 53 cents less than this time last year. The state average is also 33 cents below this year's high of \$3.64 per gallon. [Visit GasPrices.AAA.com](#) to view daily average gas prices by state and metro area.

"Over the weekend, Florida gasoline hit the lowest average price in two months," said Mark Jenkins, spokesman, AAA - The Auto Club Group. "The price of crude continues to influence prices at the pump. Oil prices increased early last week on renewed optimism about the U.S. economy, after a July domestic consumer spending report was better than analysts expected. By the end of the week, however, weak economic data from China caused oil prices to soften."

The U.S. price of crude initially jumped to \$80 a barrel, but finished the week flat. Friday's closing price of \$76.65 per barrel was 19 cents less than the week before. Gasoline futures were also down 8 cents per gallon.
