# Gas Prices Sink to New 2025 Low

[Florida gas prices](#) have fallen to a new 2025 low. Sunday's state average of \$2.86 per gallon is the lowest since December 2023.

"Low gas prices should give travelers confidence as they finalize Thanksgiving road trip plans," said Mark Jenkins, spokesman, AAA - The Auto Club Group. "However, based on recent price patterns, it wouldn't be a surprise to see gas prices increase this week."

Florida has followed a familiar cycle for over a year, where the state average declines for 5-10 days, then shoots up 10-20 cents before moving lower again. We're now at the end of an 8-day streak of declines. During that time, the state average dropped 12 cents per gallon. If the trend holds, an uptick may be imminent.

## Sunday's state average of \$2.86 per gallon is:

- 11 cents less than last week
- 13 cents less than last month
- 27 cents less than last year
